## History of the Archery Match

**February 1956:** The President of the Robin Hood Festival Association of Sherwood, Oregon issued a challenge to the yeomen of Nottingham, England. The archers would come from the entire Northwestern part of the United States. In order to cement their bond with the people of Nottingham, England, Sherwood sent 50 redwood oak trees as a living memorial.

**March 1956:** England accepts the challenge and immediately starts working out the details. The rounds they will shoot are a double American 810. Each round will be 90 arrows at the distance of 60, 50 and 40 yards, and will follow the F.I.T.A. equipment rules.

**July 1956:** A picture of the silver Tiffany bowl trophy, which the Robin Hood Festival Association donated to the International Archery Match, was sent to Nottingham, England, along with rules on how they were going to communicate during the shoot. Both competitions happened on the same day, but due to time differences, England was shooting eight hours later in the day than we were. This was the first competition. The Mayor of Sherwood has sent a challenge every year since.

The Tiffany bowl was engraved by Mr. Stefans Bercs', a master engraver. Mr. Bercs' reputation is worldwide. He is known for engraving for the Court of the Czar of Russia and other notables.

**1960s:** Sherwood had to limit shooters to Vancouver, WA and Oregon because we had more archers than room for them to shoot.

**1980s:** We had to open it up again to all of Washington and Oregon because we didn't have enough competitors.

Nottingham asked us to have a four women team. We complied but there wasn't enough interest to continue.

Changing with the times:

- ➔ to a double 900 round a perfect Score 1800.
- ➔ the 4 person Compound team was started.

**1990s:** The Compound team was changed to an 8 person team. The 4 person Longbow team was also started and there was also a renewed interest in the Junior 4 person team.

**2010s:** Masters (age 50 and older), Recurve, Compound, and Longbow 4 person teams were started.

Individual archers on all teams receive a medallion from both Sherwood and Nottingham.

## History of the Sherwood Festival

**The Heritage:** Just after World War II, a group of friends got together in the name of fun and high jinx. This club became known as Robin Hood and His Merry Men. They began to show up throughout the state at festivals and parades.

In 1954, the Sherwood Chamber of Commerce, the Sherwood Kiwanis and Robin Hood and His Merry Men of Sherwood, Inc. banded together to form the first Robin Hood Festival Association. In July of that year the annual festival officially became known as The Robin Hood Festival.

In 1956, the archery competition between Sherwood, Oregon and Nottingham, England was inaugurated. Even in the early days, competition was intense between the sister cities.

The festival today is held annually on the third weekend in July. The festivities include a parade, Knighting ceremony, food, games, renaissance groups, flower show, castle building contest, live bands, craft vendors, and of course, the archery competition with Nottingham, England.

The Robin Hood Festival Association is dedicated to encouraging merry making among all the loyal citizens of Sherwood. The mission is to promote and foster the feeling of community and citizenship. We also strive to share the riches in life that we all sometimes take for granted and share them with the people of Sherwood.

The Association is made up entirely of volunteers and is non-profit. All proceeds go back to the community in many different ways. Every year a scholarship is awarded to a graduating Sherwood High School senior.

Maid Marian and her Court are official Sherwood Ambassadors, representing Sherwood throughout the year at various events. Maid Marian and her Court are selected from the high school. The Junior Court is selected from the grade schools.

# Nottinghamshire Archery Society History

The Nottinghamshire County Archery Society was formed in 1948 with four affiliated clubs: The Nottingham Archers, Redford (Retford) Archers, Royal Ordinance Factory (Nottingham), and Simm's Son and Cooke (Nottingham).

Historical county records indicate the Royal Sherwood Archers held a meeting at Southwell in 1837. The Robin Hood Archery Club is recorded shooting at Worksop Manor in 1875.

In 1949 there were eighteen affiliated clubs in the society. Over the years other clubs formed and some disbanded. At present, the following clubs are affiliated with a total of approximately 1,100 members.

- Bassetlaw Bowmen
- Beeston Rylands Archers
- Belvoir Archers\*
- Bulwell Foresters Archers\*
- Burton Joyce Archers\*
- Bingham Leisure Centre Archery Club
- City & Sherwood\*\*
- Hart of Sherwood\*\*
- Harworth Archers\*
- Keyworth Archers
- Newark Castle Archers
- Sherwood Archers\*
- Welbeck Archers\*
- Wilford Bowmen\*

\*This club has a desingated Junior Club attached to them

\*\*This club has a Disabled Persons Club attached to them

A society president is elected every two years and other officers are elected annually. County shoots and other club events are held throughout the year.

The Lord Mayor of Nottingham's Oregon Challenge is held between Nottingham, England and Sherwood, Oregon, USA. This tournament was formerly held on the first Sunday in June. In 2010, the format was changed from shooting both rounds in a single day in June to shooting it in conjunction with the first two county league shoots. The first round is held on the first Sunday in May. The tournament is completed in the second Sunday in June. Only those members of the Nottinghamshire Archery Society qualify for team awards for the Oregon Challenge.

## History of the Sylvan Archers

**Sylvan Archers** is the oldest archery club in Oregon.

In 1933, a group of doctors and attorneys from Portland, Oregon started a club called *Sylvan Archery, Golf and Hunt Club of Portland, Oregon*, to promote and educate people on the sport of archery.

In 1936, the group grew in membership and decided to become incorporated and organized. The club borrowed and rented land to put up a few targets to shoot. However, their goal was to buy land so they would have a place for many archers to shoot for years to come. Bake sales, rummage sales and raffles were organized to raise money for the land. Their hard work raised over \$2,000.

In 1951, two big things happened; the club bought land in Sherwood, Oregon and shortened their name to “Sylvan Archers, Inc.”.

This club was for all archers – young and old, rich or poor, bow hunters and target shooters. The Sylvan emblem was developed for all to see what we stood for:

- the multi – color target was for target archers;
- the field point was the field shooters;
- the broadhead was for hunters;
- and the shield pulls us all together.

With the hard work of many members over the years, “Sylvan Archers, Inc.” now has 33 acres of land to shoot on.

Some of services we provide that we’re proud of are:

- introduce archery to many at the Sportsmen show every year;
- have a permanent practice range for all ages to shoot;
- have a roving, unmarked animal course for hunters to practice on;
- host many events to promote all styles of archery;
- have been the hosting club for the Sherwood ~ Nottingham shoot for the last 60 years;
- host the annual Broadhead league for competition for hunters and for them to hone their skills before going out hunting;
- have 3-D animal shoots, one and two day events and have field shoots ranging from 10 - 80 yards.

## Nottingham – Robin Hood Match

*Compound team challenge started in 1985 / 4 person team*

*We were to believe that the challenge was for fingers only*

*We discovered in 1989 that the Nottingham shooters were using release aids*

*Due to this change, more Compound shooters were participating so the team was changed from a 4 person team to a 6 person team in 1994. In 1995, it was decided that both Recurve and Compound teams be 8 persons.*

## Nottingham – Robin Hood Match

For several years the longbow archers have tried to join this challenge. In 1989, Sherwood had a team but Nottingham failed because of the requirements that the longbow team requested. In 1994, Nottingham tried again to establish a team. Sherwood could not get a team together.

In 1997, the US had a 2 person team and the UK had a 4 person team. In 1998, two of our Recurve shooters picked up a longbow (that they shared) and were joined by two other longbow shooters which made a 4 person team. Sherwood took the challenge that year and has continued to win the match ever since.

## How to score the shoot

The tournament consists of 180 arrows shot over a two-day period.

- 90 arrows per day
- 30 arrows per distance; 60, 50, 40 yards
- 6 arrows at a time at 60 and 50 yards
- 3 arrows at a time at 40 yards to protect the arrows from damage

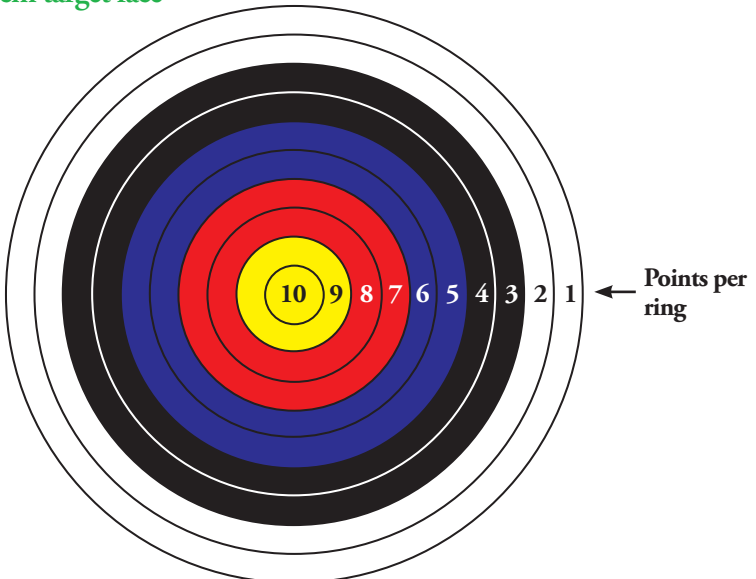

There are 10 rings to the 122 cm multi-color target that is used. The 10 ring (or center) of the gold is 5 inches in diameter and scores 10 points. Each ring proceeding outward from the center loses one point each consecutively. The outside white ring is worth 1 point (see diagram below). Any arrow that hits outside the 1 ring scores 0 points.

The perfect score is 900 points per day, with a total of 1800 points for the rounds.

The shoot has a total of seven teams. Each team has both male and female competitors which consists of the top eight recurve scores, top eight compound scores, the top four longbow scores, and the top four junior scores (ages 17 and under), and top four masters scores in each division (age 50 and older).

England shoots their tournament the first Sunday in May, and then completes the tournament the second Sunday in June. Then they send their scores to Oregon before the Sherwood shoot. At the completion of the shooting and after verifying and posting our scores, England's scores are read and the winners announced.
